

THE SCIENCE BEHIND THE AJAX WATERFRONT ALGAE ISSUE

"The Town of Ajax has put a lot of effort into keeping its waterfront open and accessible to the public. This is what they get for it. It's a tragedy."

– Dr. Auer

Special Evening with

Dr. Martin T. Auer

Author of the *Phosphorus Provenance and Cladophora Growth in Lake Ontario Report* which links the algae issue plaguing the Ajax Waterfront to the Duffin Creek WPCP.

Ajax Town Hall, Council Chambers

65 Harwood Ave. S.

January 13, 2015 – 7 p.m.

Free Admission

PICKERING AJAX CITIZENS
TOGETHER TO PROTECT
OUR WATER

ABOUT EVENT
