

Town of Ajax Public Art

Title: Veterans' Point

Artist: Bruce Johnson

Location:

Veterans' Point
Foot of Harwood Ave. (Ajax Waterfront)
Ajax ON

Description:

Through a community-based waterfront master plan, completed in 1995, it was felt that the property at the foot of Harwood Avenue, the Town's ceremonial main street, ought to make a statement, and create a distinctive cultural landmark to celebrate the past and present spirit of Ajax. Designed by Bruce Johnson, Landscape Architect with the Town of Ajax, this unique landscape has been formed in the shape of a ship's prow, representing the H.M.S. Ajax. The four paths and sculptures represent the manufacturing lines of Defence Industries Limited (DIL), the wartime munitions plant which began the community that has become Ajax.
