

Integrated Transportation Master Plan 2019

#GetAjaxMoving

NOTICE OF STUDY COMPLETION

The Town of Ajax has completed the 2019 Integrated Transportation Master Plan (ITMP). Building onto the 2010 Pedestrian and Bicycle Master Plan, the 2013 Transportation Master Plan and the 2015 Transportation Demand Management Plan, the ITMP brings together these priorities, emerging trends and growth and development within the Town. It is a multi-modal planning tool for short, medium, and long-term goals that seeks to continue improving walking, cycling and motorized transportation such as transit, driving, and carpooling in Ajax to the year 2031 and beyond.

The ITMP followed Phases 1 and 2 of the Municipal Class Environmental Assessment (EA) process for master plans. The recommended preferred alternatives were selected and refined based on the technical analysis, an evaluation of alternative scenarios, and incorporation of public and agency input. These alternatives identify the next steps that the Town can take to further improve how people travel in, around, and through Ajax.

This notice announces the start of the 30 calendar-day review period for the ITMP in accordance with the requirements of the EA process. The review period will begin on June 14, 2019. Please provide all written comments by July 15, 2019. All comments will become part of the public record of the study with the exception of personal information.
