

What is social distancing?

Social distancing means avoiding close contact with others to prevent the spread of COVID-19 and can include:

Avoiding non-essential trips in the community

Limiting, postponing or cancelling gatherings

Avoiding visits to long-term care homes and other care settings

Working from home, where possible

Conducting meetings virtually

Keeping kids away from group settings

Keep a distance of at least 2 metres (6 feet) from others when out in the community.

6 Feet
