The Town of Ajax has initiated a Schedule ‘C’ Municipal Class Environmental Assessment (Class EA) Study for improvements related to Hunt Street and Finley Avenue, in the Town of Ajax. The study area is shown on the back of this notice. The study builds on the findings of the Town’s Transportation Master Plan Update completed in February 2013, which identified the need to:

- Extend Hunt Street from MacKenzie Avenue to Westney Road, and
- Extend Finley Avenue from Bayly Street to Frankcom Street.

In addition the study will also review options to:

- Eliminate the jog at Dowty Street/ Hunt Street and Hunt Street/ Monarch Avenue intersections.

The first Public Information Centre (PIC) for this project will be held:

**Thursday March 26, 2015**
**Ajax Town Hall, Council Chambers**
65 Harwood Avenue South, Ajax
Open House 6:30 pm to 8:30 pm

The PIC will provide information on the need and justification for possible improvements to the road network, the alternative solutions being reviewed and the evaluation criteria being used including impacts to the social, natural and cultural environment. The PIC is also an opportunity for stakeholders to provide input into the study and to ask questions regarding the study.

Interested persons are encouraged to bring issues and concerns to the attention of the Town at any time during this process. If you require further information, would like to be added to the project mailing list, or if you have a comment related to this study, please contact one of the project managers noted below:

**Carol Coleman, P. Eng.**
Manager of Engineering, Capital Projects
Town of Ajax
